

## WHO WE ARE...

**Brent Coon**

Founder of Brent Coon and Associates

- Over the years, BCA has built the most comprehensive understanding in the legal industry of BP's corporate culture.
  - Brent Coon has spent the past five years going toe-to-toe with BP and is considered the world's leading legal spokesman on the "dark side" of BP's corporate culture.
  - In this fight against BP, Brent Coon is regularly seen on CNN, 60 Minutes, MSNBC, FOX, Good Morning America and CNBC and is quoted on BP legal strategy in virtually every major media outlet in the country. (to watch, visit [www.gulfcoastdisaster.com](http://www.gulfcoastdisaster.com))
  - In the famous BP Texas City Plant Explosion Case, Brent Coon insisted that documents used in trial against BP remained "unsealed" – thereby holding an entire industry accountable for its actions.
- As part of the same settlement, Brent Coon forced BP to give over \$40 million to non-profit organizations and charities, including vital process safety management centers, to improve safety conditions in the industrial workplace.
  - Following his legal victories, Brent Coon personally wrote the "Eva Bill" – a landmark piece of legislation named after Eva Rowe, a young woman who lost both of her parents in the 2005 BP refinery explosion. This bill was designed to forever improve safety and health standards in the petrochemical industry.
  - For these accomplishments and many others involved in taking on BP, Brent Coon was awarded the "Lawyer of the Year Award" (the American Association of Justice's prestigious Steven Sharp Award) in 2008.

## WHY YOU NEED BCA...

- BCA has seven million internal BP documents and over 2,000 hours of taped depositions from BP employees and industry experts
- BCA has over 30 litigators licensed throughout the Gulf Coast and local offices in Houston and Beaumont, Texas, Baton Rouge and New Orleans, Louisiana, Jackson, Mississippi and Destin, Florida.
- Due to our past experience with BP, BCA has been chosen to serve in a leadership role on multiple Plaintiff's Steering Sub-committees in the current litigation against BP.
- BCA is representing thousands of oil rig workers, shrimpers, fishermen, processors, tourism industries and condo/rental property owners from Texas to Key West.
